Summary

Student interested in Web Development with 2 years of non-professional experience in building web apps. Currently pursuing a Computer Engineering and Informatics degree at CUT.

Education

Cyprus University of Technology | 2021 - 2025

- Bachelor of Engineering
- BE Computer Engineering and Informatics

Leukothea Lyceum | 2018 - 2021

- Focus on Informatics and Computer Networking
-

Projects and Experience

Road Signs Test - [GitHub Repo](#)

- Created a web app to quiz yourself on the road signs found in Europe but mainly in the UK and Cyprus.
- Worked with many students from CUT to get their feedback and improve the look and feel of the site.
- The technologies used in this project are ReactJS for the build, GitHub to store, host, and serve the website, and jsDelivr to deliver the road sign images to the site.

Personal Portfolio - [GitHub Repo](#)

- A personal portfolio website showcasing projects and information about me as a student and an aspiring web developer.
 - Also used my colleagues' opinions to make sure the website both looks and performs as intended.
 - The technologies used in this project are ReactJS, HTML and CSS for the build, and GitHub to store, host, and serve the site.
-

Skills and Technologies
